

Fuel Surcharge Table - Truckload

In the event the price for diesel fuel based on the Department of Energy (DOE) National Average is greater than or equal to \$1.095 per gallon (based on a base price of \$1.05 per gallon) all transportation rates for all truckload shipments charged to Shipper shall increase according to the table shown below. Surcharge will be effective for loads dispatched Monday through Sunday based on the DOE information release on Monday of that week:
